Company Overview

JPEC Services, LLC is a specialized electrical contractor providing design, engineering, installation, and commissioning of electrical infrastructure, power systems, and lighting modernization projects for federal and state agencies and military installations.

JPEC delivers reliable, high-quality electrical solutions supporting mission-critical operations across the United States.

Company Data

- **Company Name:** JPEC Services, LLC
- **UEI:** G8A6AT3FNL43
- **CAGE Code:** 8ZZ59
- **Business Type:** Small Business
- **Primary NAICS:** 238210 – Electrical Contractors
- **Core Services:** Electrical Infrastructure, Generator Systems, Lighting Modernization

Core Competencies

Electrical Infrastructure & Power Systems

- Electrical design and engineering
- Medium voltage distribution systems
- Substation and critical power systems
- Electrical system upgrades and modernization

Backup Power & Energy Systems

- Generator installation and commissioning
- Emergency power generation systems
- Power load analysis and system integration
- Diesel and alternative energy solutions

Lighting & Electrical Modernization

- LED lighting retrofits and upgrades
- Airfield and aviation lighting systems
- Facility lighting modernization
- Exterior and site lighting systems

Specialized Electrical Systems

- Renewable energy and solar systems
- Surge protection and grounding
- Heat trace systems
- Automation and control systems
- Secure facility (SCIF) electrical systems

Key Differentiators

- **Federal Contracting Experience**
  Proven performance supporting DHS, DoD, FEMA, DOI, and NPS
- **Specialized Electrical Contractor**
  Focused expertise in power systems, generators, and lighting
- **Nationwide Project Capability**
  Successfully executed projects across multiple states
- **Mission-Critical Experience**
  Experience supporting military installations and federal facilities
- **Safety & Compliance**
  OSHA compliance, Davis-Bacon, Buy American, federal labor standards
